

# Getting Your Disk Serial Number

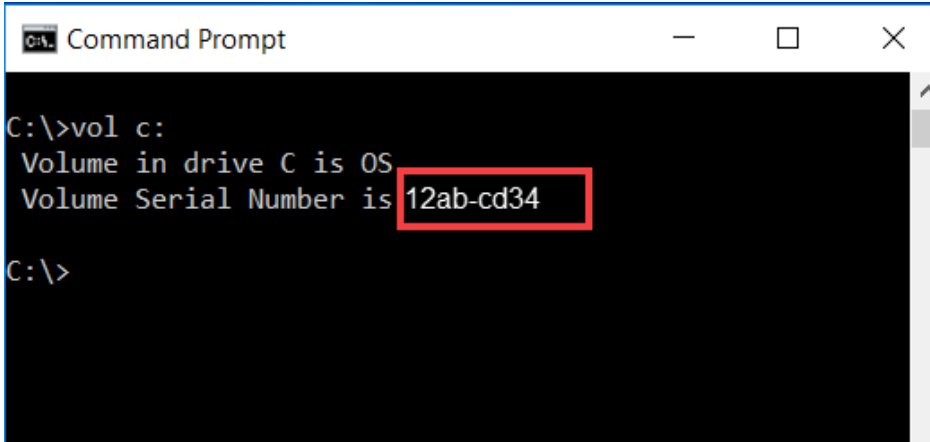

1. Open a command prompt. If you are not sure how to open a command prompt, click the Windows Start menu, type `cmd`, and press Enter.

2. in the Command Prompt window that opens, type `vol c:` and press Enter.

3. In the displayed output, find the 8-digit number listed as the Volume Serial Number for C drive. Make sure that the message is **Volume in drive C is OS**.

```
C:\>vol c:  
Volume in drive C is OS  
Volume Serial Number is 12ab-cd34  
  
C:\>
```

The case of the letters is not important and no dash is included. In this example, you would enter **12abcd34**
